

## CURRICULUM VITAE

**Name:** NARENDRA KUMAR GOEL

**Designation:** Emeritus Fellow  
International Centre of Excellence for Dams  
Indian Institute of Technology Roorkee,  
Roorkee- 247667, India

**Date of Birth:** April 24, 1959

**Contact Details:** [nkgoel@hy.iitr.ac.in](mailto:nkgoel@hy.iitr.ac.in); [goelhy@gmail.com](mailto:goelhy@gmail.com)

Mob. +91-9412393851; Tel. +91-1332-285654 (ICED); Tel. +91-1332-285814 (Hydrology)

**Education:** **B. Tech.** (Civil Engineering), 1980, GBPUA&T, Pant Nagar.  
**M. Tech.** (Water Resources Engineering), 1982, IIT Delhi.  
**Certificate of Hydrology**, 1984, CSU, USA.  
**Ph.D. (Hydrology)**, 1991, IIT Roorkee.  
**Post-Doctoral:** Uni. of Waterloo, Canada

### Specialized Training Abroad:

- August 1983- Jan. 1984 at CSU, USA in Stochastic Hydrology
- Nov. –Dec. 1987 at University College Galway, Ireland in Flood Forecasting

### Professional Experience:

**National Institute of Hydrology, Roorkee:** May 1982 – June 1988, as Scientist B and C.

**Indian Institute of Technology Roorkee:** June 1988 onwards; Reader, Associate Professor, Professor and Professor (HAG), Emeritus Fellow

**Area of Specialization:** Stochastic Hydrology, Extreme value estimation, Flood estimation and forecasting, Power generation projects and pipeline projects, hydrological analysis and planning, Dam Engineering.

### Awards:

- **Ravi Mohan Mangal Institute Chair Professor of IIT Roorkee, 2023- Contd.**
- **Adjunct Professor, IIT Mandi**
- **Outstanding Alumnus of College of Technology, GBPUAT, 2019**
- **Chair Professor, Bharat Singh Chair for Water Resources (MoJS, DoWR, GR&RD); 2013-2017**
- **ASCE-EWRI -2014 Best Case Study award**
- **‘Adjunct Professor’ University of Waterloo, Canada 2003-2006.**
- **Khosla Research Prize** in the years 1999, 2001 and 2002.
- **‘Star performer’** for six times in a row by IIT Roorkee since 2001.

### **Membership of National & International Committees:**

- Member CDSEP, Maharashtra
- Member DSRP for Udaipur, Banswara and Jodhpur Zone dams of Rajasthan
- Member, Independent panel of experts for Comprehensive Dam Safety Evaluation of Tehri, Koteshwar and PSP dams
- Member, Independent panel of experts for Comprehensive Dam Safety Evaluation of Kol Dam
- Member, Technical Advisory Committee for Dams in Punjab (November 2023- onwards)
- Member, Dam Safety Review Panel, Meghalaya State Dam Safety Review Panel
- Member, Dam Safety Review Panel, Assam Power Generation Corporation Limited
- Member, Dam Safety Review Panel of NEEPCO (2022 onwards)
- Member, Dam safety review panel of the Government of Chhattisgarh (2019 onwards)
- Member, joint committee of NGT for sand Mining
- Member, Sub-committee of National Committee on Dam Safety (NCDS) on Capacity Development (2023- onwards)
- Member Committee for assessment and suggest remedial measures floods in Kullu, July 2023
- Member, Society of National Institute of Hydrology, MoJS, Government of India (2021- Onwards)
- Member Sub-committee for Comprehensive Evaluation and System Studies on Interlinking of Rivers, Ministry of Jal Shakti, GoI (2022- onwards)
- Member, Panel of experts, UPSC.
- Editor, Journal of Hydrology, Indian Association of Hydrologists 2003-07.
- Member, Expert Committee, Evaluation of mining projects, MoEF, GoI. (2006-08).
- Member, TAC, National Institute of Hydrology, MoWR, RD &GR, GoI (2009-11).
- Member, Indian National Committee on Hydrology, MoWR, RD &GR, GoI (2009-11).
- Member, Sub-committee on WRD, Bureau of Indian Standards, GoI (2012- Cont.).
- Member, State Expert Appraisal Committee, Uttarakhand, MoEF, GoI, (2013-2017).
- Member, Indian National Committee of IHP, GoI (2013- Contd.).
- Member, Committee for International Commission on Large Dams, India (2014 –contd.).
- Member, multi-disciplinary committee, MoWR, RD &GR, GoI on ‘Reduction of flow in Pamba and Periyar rivers 2014- onwards
- Member, the working group on ‘Design flood estimation’, Central Water Commission, MoWR, RD &GR, GoI (2014- onwards)

### **Membership of Professional Societies**

- Member Dam Safety Society
- Member, International Water Association
- Member, International Association of Hydrological Sciences
- Member, Indian Association of Hydrologists
- Member, Indian Water Resources Societies
- Member, Wind society
- Member, Indian Association of Soil and Water Conservationists
- Member, Indian National Committee on Large Dams.

### Technical Accomplishments:

- Guided **24 Ph.D. Dissertations** (including 8 in progress)
- Guided **87 M. Tech. Dissertations** (including 3 in progress)
- Published **3 books** (Edited proceedings of international conferences)
- Published **70+ technical papers** in refereed national and International Journals
- Published **90+ technical papers** in National and International seminar proceedings.
- Published **15 Technical reports**.
- Participated in **50+ consultancy projects** (over 30 as Principal Investigator) with a total financial outlay of over INR 400 million.
- Participated in **9 research projects** (6 as PI and 3 as co-PI) worth INR 1250 million.
- Organized **60+ sponsored short-term courses** for the officers of various organizations, including 10 International programmes.

### Courses at the post-graduate level:

- |  |  |
|--|--|
| ● Stochastic Hydrology                                     | ● Hydrologic elements and analysis                   |
| ● Deterministic Hydrology                                  | ● Engineering Hydrology                              |
| ● Physical Hydrology                                       | ● Urban Hydrology                                    |
| ● Flood forecasting  | ● Natural hazard and impact assessment               |
| ● Hydrological Safety Evaluation of Dams                   | ● Hazard monitoring, prediction, and micro-zonation. |
| ● Dam Safety surveillance, instrumentation, and monitoring |  |

### Administrative Responsibilities:

- (i) **Head, International Central Excellence for Dams (ICED) at IIT Roorkee (May 2023 – April, 2024)**
  - Establishment of the International Centre of Excellence for Dams at IIT Roorkee under DRIP phase II and III with a grant of Rs 108.99 Crores.
  - Initiation of MoUs with various national and international organisations.
- (ii) **Coordinator, Dam Safety and Rehabilitation Programme at IIT Roorkee (2017 -2022)**
  - Organized National Dam Safety Conference in coordination with UJVNL and Central Water Commission on February 18-19, 2017.
  - Executed a project worth Rs. 10.92 Crores on Capacity building in Dam Safety and Rehabilitation
  - Started an M Tech Programme on Dam Safety and Rehabilitation, which is jointly being conducted by the Departments of Hydrology, Earthquake Engineering, Civil Engineering and WRDM
- (iii) **Chairman, Hospital Advisory Committee (2012 – 2016)**
  - Interaction with every section of the IIT community
  - Facilitating medical services to about 15000 members of IITR Community through a team of about 60 medical and paramedical staff
  - Got the auditing of Institute hospital done through independent agency HOSMAC for better resource management
  - Got CGHS based MATR-2012 implemented, which was pending since last 10 years
  - Carried out MoU's with local hospitals as well as super –specialty hospitals like Max, Fortis,

- Initiated selection process for recruitment of doctors based on DACP scales.

**(iv) Dean of Students' Welfare (2009-2011)**

- Led a team of about over 80 faculty members to look after the Welfare (Bhawan i.e hostel, Mess and extra-curricular activities) of about 7000 students
- Execution and operation of 4 new students' hostels for 2500 students
- Conceptualization, planning and execution of "Multi-activity Centre" for students
- Conceptualization and planning of 'Students Live Centre cum sports complex
- Strengthening of sports facilities
- Setting up of SDS labs in hobbies club
- Initiated a number of Students welfare schemes like creation of Students' Counselling Cell, 'Earn while you learn' scheme for poor students, Child care centre, Counseling of academically poor students at Hostel and Department levels etc.

**(v) Head, Department of Hydrology (2006-2008)**

- Led a team of 10 faculty members.
- Got the Department re-empaneled operational under ITEC and SCAPP programs of MoEA, GoI
- Initiated actions for recognition of the Department as the Regional Training Centre of WMO
- Initiated collaboration with UNESCO-IHE Delft and coordinated the PoWER project with 15 partner countries from the IIT R side.
- Initiated collaboration with several field organizations likes NTPC Ltd., NHPC Ltd., THDC India, SJVN Ltd., DVC, and State Govt. departments.
- Initiated 'Purpose-driven studies' with Govt. of Himachal Pradesh & Govt. of Orissa.
- Enhanced Institute -Industry interaction resulting in the award of about 30 consultancy projects (more than Rs 4 crores).

**(vi) Chief Advisor Sports (2004-2005)**

- Led a team of 15 faculty advisors and three sports officers.
- Conceptualized, planned, and executed the infrastructure development for sports facilities worth Rs. 2.5 crores at IIT, Roorkee, in a record time of about one year.
- Coordinated the first-ever inter-IIT sports meet at IIT Roorkee. In this meet about 1200 students from 7 IITs participated
- IIT Roorkee ranked second amongst 7 IITs.

**(vii) Coordination and MoU's handled.**

- Coordinator, International Centre of Excellence for Dams at IIT Roorkee under DRIP phase II and III with a grant of Rs 108.99 Crores.
- MoA for the establishment of the International Centre of Excellence for Dams at IIT Roorkee under DRIP phase II and III with a grant of Rs 108.99 Crores.
- Coordinator, M Tech programme on Dam Safety and rehabilitation and DRIP project at IIT Roorkee.
- MoU between IIT Roorkee and National Institute of Hydrology
- Coordination with World Meteorological Organization, Geneva
- MoU between IIT Roorkee and UNESCO-IHE Delft and PoWER members of about 15 countries
- MoU between IIT Roorkee and University of Waterloo, Canada

## **DISTINGUISHED PERSONS WELL ACQUAINTED WITH MY WORK**

- (i) Prof. K. K. Pant,  
Director, Indian Institute of Technology Roorkee  
[director@iitr.ac.in](mailto:director@iitr.ac.in)
- (ii) Dr. Donald H. Burn,  
Professor Emeritus and Adjunct Professor,  
Dept. of Civil & Environmental Engineering, University of Waterloo,  
200 University Avenue West, Waterloo ON N2L 3G1 CANADA  
Phone: 001- 519 888-4567 Ext 33338 FAX:001- (519) 888-4349  
[dhburn@uwaterloo.ca](mailto:dhburn@uwaterloo.ca); [donburn369@gmail.com](mailto:donburn369@gmail.com)
- (iii) Dr. Richard M. Vogel,  
Research Professor and Professor Emeritus  
Department of Civil and Environmental Engineering  
Tufts University Medford, MA 02155,  
Tel: 001- 617-627-4260 [Richard.vogel@tufts.edu](mailto:Richard.vogel@tufts.edu)
- (iv) Professor Vijay P. Singh,  
Department of Biological and Agricultural Engineering  
Texas A&M University; 321 Scoates Hall, 2117 TAMU  
College Station, Texas 77843-2117, U.S.A.  
Office: (979)-845-7028  
Fax: (979)-862-3442  
E-mail: [vijay.singh@ag.tamu.edu](mailto:vijay.singh@ag.tamu.edu)  
<https://baen.tamu.edu/people/singh-vijay/>  
<https://vijaypsinghtamu.wixsite.com/vsingh>
- (v) Prof. A.K. Chaturvedi, Former Director- IIT Roorkee,  
Department of Electrical Engineering, IIT Kanpur  
[akc@iitk.ac.in](mailto:akc@iitk.ac.in), 0512-259-7613
- (vi) Prof. Pradipta Banerji, Former Director- IIT Roorkee  
Department of Civil Engineering, IIT Bombay  
[pbanerji@civil.iitb.ac.in](mailto:pbanerji@civil.iitb.ac.in); +91-22-2576-7334
- (vii) Dr. S. C. Saxena, Former Director, IIT Roorkee,  
Presently Pro Chancellor, Jaypee Institute of information Technology  
A-10, Sector-62; Noida -201307  
[saxenasuresh@yahoo.co.in](mailto:saxenasuresh@yahoo.co.in); [saxenasuresh22@gmail.com](mailto:saxenasuresh22@gmail.com)  
+91-7838189999

## DETAILS OF PUBLICATIONS AND PROJECTS

### Ph.D. THESES GUIDED:

1. Development of Common attributes for seismological and hydrological data, by Rajeev Kumar Vishnoi, jointly with Dr M L Sharma (2025 in progress)
2. Application of artificial Intelligence and machine learning in dam engineering with a focus on dam safety under the Dam Safety Act 2021 by Varun Bhasin with Dr. Ashutosh Sharma (2025 in progress)
3. Resilience of Dams under Climate Change by Lingaraj Nath jointly with Dr D S Arya (2024 in progress)
4. Development of flow forecasting system for Glacier dominated basin by Tapas Nahak, Jointly with Dr Ajanta Goswami (2022, in progress)
5. Urban Flood Modelling by Tuhin Mukherjee, Jointly with Dr D S Arya (2021; in progress)
6. Multivariate nonstationary flood frequency analysis, Ankush, jointly with R Vinnarasi (2020; in progress)
7. Short and medium range forecast of rainfall using ensemble models by Suman Gurjar, Jointly with Dr M K Goel (2020; in progress)
8. Streamflow forecasting using machine learning Models by Bhanu Sharma (2018 in progress)
9. Study of flood Scenario of Jhelum Basin with regard to Catchment area and climate change by Sheikh Umar under the joint guidance of Dr M A Lone at NIT Srinagar (Awarded, 2022)
10. Climate extreme studies in changing climate over India by Bratati Chowdhary, jointly with Dr Manohar Arora (Awarded, 2021)
11. Development of an operational flood forecasting system for Tehri dam by Niraj Kumar Agrawal jointly with Dr A K Lohani (Awarded, 2019)
12. Climate Variability Studies over parts of India with focus on Hydro-climatic variables by Litan Kumar Ray (Awarded, 2018)
13. Impact of Climate and catchment dynamics on runoff generation by Negash Wagesho from Ethiopia jointly with Dr. M.K. Jain (Awarded, 2012)
14. Flood estimation and forecasting in Mahanadi River basin using soft computing techniques by Anil Kar jointly with Dr A.K. Lohani (Awarded, 2011)
15. Flood forecasting and early warning studies for parts of Bangladesh by Mizanur Rahman from Bangladesh jointly with Dr. D.S. Arya (Awarded, 2011)
16. Evaluation of temporal and spatial climatic variability over Indian Himalaya by S.K. Shrivastava, supervised jointly with Dr. Ranvir Singh and Dr. Pratap Singh (Awarded, 2011)
17. Hydrological modelling for flood flows by Mr. Shibayan Sarkar jointly with Dr. B.S. Mathur (awarded- 2010)
18. Climate change studies: A spatio-temporal analysis for part of India by Ashoke Basistha jointly with Dr. D.S. Arya (Awarded- 2010)
19. Regional flood frequency estimation in India by Rakesh Kumar, supervised jointly with Dr. K.K.S. Bhatia (Awarded-2009)
20. ANN and fuzzy logic in hydrologic modeling and flow forecasting by A. K. Lohani, jointly with Dr. K.K.S. Bhatia (2008)
21. Effect of climatic changes on surface hydrological estimates by Mr. Manohar Arora, jointly with Dr. Pratap Singh (2005)

22. Estimation of extreme flows for ungauged catchments by Mr. V. K. Bhatt - jointly with Dr. B.S. Mathur (2003)
23. Operation of a multipurpose reservoir by Mr. S.K. Mishra, jointly with Dr. S. M. Seth and Dr D.K. Srivastava (1998)
24. Development of physically based flood frequency models by Mr. R.S. Kurothe, jointly with Dr. B.S. Mathur (1997)

**M. Tech. THESES GUIDED:**

1. Development of operational Inflow Forecasting system for DVC dams by Ankur Prakash 2025-26
2. Development of operational Inflow Forecasting system for JKSPDCL dams by Javed Ahmad 2025-26
3. Dam break and EAP analysis for the selected dams by Neeraj 2025-26 jointly with Dr Manohar Arora
4. Assessing Srisaillam Dam stability under plunge pool Erosion by Naveen Uppuluri, 2024-25 jointly with Mahendra Singh and B R K Pillai
5. Dam break modelling and inundation mapping of Mangdecchu dam, Bhutan by Ugyen Choda, 2024-25 jointly with Ashutosh Sharma and Manohar Arora
6. Comprehensive Risk Assessment of Srisaillam dam by R Siddhardha Reddy, 2024-25 jointly with R D Garg and B R K Pillai
7. EAP of a typical dam in West Bengal, Avtar Singh, 2023-24
8. EAP of a typical Dam in Madhya Pradesh, Akshay Lakherwal, 2023-24
9. Flood estimation and Forecasting of a sub-basin of Narayani River basin, Sagar Mishra, 2023-24
10. EAP of a typical dam in Orissa, V Naga Reddy, 2023-24
11. Estimation of Design flood and Glacial Lake Outburst Flood (GLOF) for planning and Design of Hydroelectric Projects in the Himalayas, by Isly Issac, 2022-23
12. Comprehensive risk assessment of Maithon Dam by Abhishek Shukla 2022-23
13. Projection of flood seasonality changes in a Garhwal Himalayas river basin due to global warming, by Prachi Singhal 2021-22 jointly with Ankit Aggarwal
14. Effect of additional spillway on downstream floods of Hirakud, by Lingaraj Nath; 2020-21
15. Design of Hydro-meteorological Network of Narayani River Basin, Nepal, by Dinkar Kayastha; 2020-21
16. Assessment of Water availability up to Daudhan dam site of Ken basin for Ken-Betwa link project by Shiva Kant Pandey, 2020-21
17. Challenges and opportunities of small-scale irrigation utilization in the central Rift Valley basin of Dugda Worda, Ethiopia, by Obese Wegi Gebissa; 2020-21
18. Effect of Kalia Sot Dam, Bhopal on downstream floods under climatic and LULC changes by Satyajee Shukla; CoEDMM (jointly with Harshit Lakra) 2020-21
19. Development of a framework to address drought issues, by Arjun Kaushik; 2019-20
20. Regional flood frequency analysis for Narayani River basin, Nepal by Ram Kumar Kapair; 2019-20
21. Identification of hotspots and glacial lakes in Arunachal Pradesh by Vijitha Sree Thathireddy; CoEDMM, (jointly with Ajanta Goswami); 2019-20
22. Daily streamflow forecasting using stochastic models by Ally Diwani; 2018-19
23. Flood risk assessment for dams by Aman Kumar Singh; 2018-19
24. Flood hazard mapping for the Roorkee area by Chaitanya; COEDMM, 2018-19
25. Hydrological aspects June 28, 2017, flood at IIT Roorkee by Ila Prakash; COEDMM, 2017-18
26. Geomorphological analysis and hydrological modelling of three Himalayan catchments of Nepal and India by Santosh Kumar Sah; 2017-18
27. Turbine testing under field conditions; by Desh Deepak; 2017-18
28. Flood Estimation in a river basin downstream of a major reservoir in a coastal region by Jaya Ram

29. Multivariate modelling of hydro-meteorological extremes by Sujan Tamrakar; 2015-16
30. Study on climate change in Sundarbans, Bangladesh by Nurul Hoque Upal; 2015-16
31. Glacial lake outburst flood studies over Indus basin by Mr. Shailesh Kumar; 2014-15
32. Climate Change Studies over Nepal by Mr. Sunil Poudel 2014-15
33. Flood estimation for rivers of Saurashtra region contributing into Gulf of Khambat by Miss Priyanka 2013-14
34. Analysis of non-stationarity in hydro-meteorological data of Dhadhar river basin by Mr. Sunil Kumar, 2013-14
35. Simulation of June 2013 flood at Tehri dam, by Mr. Supindra Khatri 2013-14
36. Flood studies in and around Alaknanda basin by Mr. Y.K. Goel 2013-14
37. Flood estimation and forecasting studies for Tehri dam – Mr. Ashish Sinha 2012-13
38. Flood routing studies for VPHE project, Uttarakhand by Mr. Sujay Negi 2012-13
39. Simplified flood routing methods- Mr. M.M. Vishnu 2012-13
40. Hydrological reappraisal for Visnugad pipalkoti hydro-electric project by Sushil Himanshu 2011-12
41. Design flood estimation for Tehri dam using deterministic and statistical approaches by Ajay Kumar, 2011-12
42. Hydrological analysis for a coastal power project (2010-11), Keshav Bobade
43. Regional flood frequency analysis of Nepal rivers (2009-10) , Badri Karki from Nepal
44. Stochastic modeling of flood flows for Myanmar rivers (2009-10) by Lai Lai Winn from Myanmar jointly with Dr. A.K. Lohani
45. Climate change scenario generation using statistical downscaling (2009-10) by. N.P. Gautam from Nepal jointly with Dr. Manohar Arora
46. Bivariate Flood frequency analysis using Copulas (2009-10) by Siddartha Shankar Mishra, jointly with Dr. Aditi Gangopadhyay
47. Design flood and Scour depth computation at pipeline crossing (2008-09) , Ekta Sahay jointly with Dr. D.S. Arya and Dr. Sanjay Kumar
48. Modelling of snow melt component in the runoff of river Bhagirathi at Tehri (2008-09), Neeraj Agarwal, jointly with Dr. D.S. Arya and Dr. Manohar Arora
49. Predictions in ungauged basins of Orissa (2007-08) , A.K. Kar
50. Flood predictions in MMRDA region, Mumbai (2007-08), D. Chakravorty
51. Stochastic modeling of Nile Flows (2007-08) by Eltag from Ethiopia
52. Climate change influences on hydrological extremes (2005-06) by S.K. Gangwar jointly with Dr. D.S. Arya
53. Flood risk mapping by Dhruv Dharendra (2005-06) jointly with Dr. D.S. Arya
54. Flood hazard Assessment of Chitwan District in Nepal (2004-05) by Bhupendra Gauchan from Nepal jointly with Dr. D.S. Arya
55. Flood risk mapping in the lower part of Chindwin River in Myanmar (2004-05) by Htay Htay Than from Myanmar, jointly with Dr. D. S. Arya
56. A critical appraisal of flood forecasting models by G.B. Patnaik (2003-04) jointly with M. Perumal
57. Extreme value estimation for hydro-meteorological data by Shiv Kumar (2003-04)
58. Water availability aspect of Inter-basin water transfer by Goutam Chandra Das (2003-04) jointly with B.S. Mathur
59. Temporal and spatial analysis of rainfall in Uttaranchal (2003-04) by Ashok Basistha jointly with D.S. Arya
60. Stochastic analysis of daily rainfall data between Bargi and Hoshangabad by Y.K. Dhama (2002-2003)

jointly with Dr. K.S. Ramasastri

61. Stochastic analysis of high frequency ground water data by S.M. Deshpande (2001-2002)
62. Estimation of flood quantiles from non-stationary flood series by R.B. Jigajinni (2000-2001)
63. Hydrologic modelling of snow fed river basin by T. Thomas (1999-2000) jointly with Dr. S.M. Seth and Dr. Pratap Singh
64. Flood Frequency modelling for Beas basin upto Pandoh by R.K. Jaiswal (1999-2000) jointly with Dr. S.M. Seth and Dr. Pratap Singh
65. Streamflow forecasting using linear perturbation model & ANN approach by N. Vivekanandan (1999-2000) jointly with Dr. D.S. Arya
66. Flood estimation for Bagamati river at Pandhera Dhoban, Nepal by L.D. Shrestha from Nepal (1999-2000) jointly with Dr. B.S. Mathur
67. Frequency analysis of censored data by Abera Chala Buba from Ethiopia (1998-99) jointly with Dr. D.K. Srivastava
68. Streamflow forecasting using ANN by Fikru Gemtecha from Ethiopia (1998-99) jointly with Dr. D.S. Arya
69. Stochastic modelling of ground water levels by A.K. Agarwal (1997-98) jointly with Dr. D.C. Singhal
70. Flood frequency analysis for ungauged sites of central India by Jemal Reshid Shafi from Ethiopia (1997-98)
71. Event-based rainfall-runoff modelling using geomorphological characteristics by M.K. Sharma (1996-97) jointly with Mr. R. D. Singh
72. Analysis of hydro-meteorological data by A.K. Dwivedi (1996-97) jointly with Mr. Hemant Chaudhary
73. Richard's equation assisted flood hydrograph computation by kinematic wave approach by Manoj Kumar Singh (1995-96) jointly with Dr. Deepak Kashyap
74. Flood frequency studies using L-moments by Bhopal Singh (1995-96)
75. Regional flood frequency analysis for Central India by Jyoti Prasad (1994-95).
76. Development of daily rainfall generation model by Vu Hong Chau from Vietnam, (1993-94).
77. Rainfall runoff modelling by Adil Yassin Mohamed from Sudan, (1993-94), jointly with Mr. R.D. Singh.
78. Analysis of daily rainfall and runoff data of Serang river basin, Indonesia by Sutjipto from Indonesia, (1993-94).
79. Flood forecasting using geomorphological instantaneous unit hydrograph by Abdul Qayyum Karim from Afghanistan (1992-93).
80. Flood frequency analysis using two step power transformation by Satyabrata Banerjee (1991-92).
81. Derivation of Nash model parameters from geomorphological instantaneous unit hydrograph by R.K. Panigrahi (1991-92) jointly with Mr. R.D. Singh
82. Studies on general extreme value distribution by Manik De (1990-91).
83. A comparative study of regional flood frequency methods by James U. Iko from Nigeria (1989-90).
84. Hydrological studies for Manibhadra Dam project by J.K. Rath (1989-90).
85. Regional flood frequency analysis of Mekong River basin, Laos by Panyasiri Sang from Lao PDR (1988-89).
86. Flood estimation in river Jhelum basin using statistical approach by M.A. Lone, (1988-89) jointly with Dr. B.S. Mathur
87. Comparison of monthly streamflow models by Rajeshwar Mehrotra (1988-89).

#### **BOOK (S)/ Book Chapters:**

1. Singhal, D.C., Goel, N.K., Srivastava, D.K., Singh, Ranvir, Joshi, H. and Mathur, B.S. (1997), 'Emerging Trends in Hydrology' Edited Proceedings of International Symposium on 'Emerging Trends in Hydrology'

Sept. 25-27, 1997, Jain Printers, Roorkee. (Volume I)

2. Perumal, M., Singhal, D.C., Arya, D.S., Srivastava, D.K., Goel, N.K., Mathur, B.S., Joshi, H., Singh, R., Nautiyal, M.D. (2005)' Hydrological Perspectives for Sustainable Development', Edited Proceedings of International Conference ' Hydrological Perspectives for Sustainable Development' Feb. 23-25, 2005, Allied Publishers Pvt. Ltd.
3. 'Development of a Fuzzy Flood Forecasting Model for Downstream of Hirakud Reservoir of Mahanadi Basin, India' by A.K. Kar, A.K. Lohani, N.K. Goel, and G.P. Roy in Book entitled 'River System Analysis and Management' by Nayan Sharma (Ed), Springer Science +Business Media Singapore 2017, ISBN 978-981-10-1472-7, pp 211-218.

#### TECHNICAL PAPERS IN REFEREED JOURNALS:

1. Kalai, C., Goel, N. K. (2025). Peak rainfall seasonality and its changes influenced by monsoons in India. International Journal of Climatology; <https://doi.org/10.1002/joc.70021>
2. Singhal, P., N. K., Bronstert, A., Vormoor, K., Agarwal, A., & Arora, M. (2025). Understanding the flood seasonality in a Himalayan River Basin under changing climate. Theoretical and Applied Climatology, 156(7), 1-20. <https://doi.org/10.1007/s00704-025-05585-x>
3. Bisht, M. S., Kumar, S., Goel, N. K., Arora, M., & Manikanta, V. (2025). Groundwater quality assessment using water quality indices, hydrogeochemical studies and multivariate statistical analysis in Udham Singh Nagar district, Uttarakhand, India. Environment, Development and Sustainability, 1-40. <https://doi.org/10.1007/s10668-025-06244-x>
4. Ankush, Goel, N K, Rajendran, V (2025). Integrating regionalisation, uncertainty, and nonstationarity in modelling extreme rainfall events in India, Journal of Environmental Management 376, 124377, <https://doi.org/10.1016/j.jenvman.2025.124377>
5. Mukherjee, T, Goel, N. K., Arya, D.S., Arora, M. (2025), Integrating hydro-geomorphological adjustments into flood mapping for enhanced risk assessment', Geoenvironmental Disasters 12 (1), 5. <https://doi.org/10.1186/s40677-025-00309-9>
6. Arora, M., Goel, N.K., Kesarwani, K., and Malhotra, J. (2024), Integrated hydrological modelling and streamflow characterization of Gangotri Glacier meltwater', Applied Water Science 14 (10), 231. <https://doi.org/10.1007/s13201-024-02283-3>
7. Issac, I., Goel, N.K., Schwanghart, W. et al. Comprehensive analysis of hydrological and glacial dynamics in the Himalayas: addressing glacial lake outburst flood risks in hydropower development. Nat Hazards (2024). <https://doi.org/10.1007/s11069-024-07042-w>
8. Ankush, Goel, N. K., and Vinnarasi, R. (2024). Modelling climate change-induced nonstationarity in rainfall extremes: A comprehensive approach for hydrological analysis', Technological Forecasting and Social Change, Volume 208, 123693, <https://doi.org/10.1016/j.techfore.2024.123693>
9. Goel, N.K, and Arora, M. (2024), Impact of Climate Change on Hydropower Generation, International Journal on Hydropower and Dams, Volume 31, Issue 4.
10. Sharma, B., and Goel, N. K., (2024), Streamflow Prediction using Support Vector Regression Machine learning model for Tehri Dam', Applied Water Science; 14 (5), 1-20. [10.1007/s13201-024-02135-0](https://doi.org/10.1007/s13201-024-02135-0)
11. Batalini de Macedo, M., Mangukiya, N. K., Fava, M. C., Sharma, A., Fray da Silva, R., Agarwal, A., Razzolini, M. T., Mendiondo, E. M., Goel, N. K., Kurian, M., and Nardocci, A. C. (2024), ' Performance analysis of physically-based (HEC-RAS, CADDIES) and AI-based (LSTM) flood models for two case studies' Proc. IAHS, 386, 41–46, <https://doi.org/10.5194/piahs-386-41-2024>, 2024.
12. Shukla, A., and Goel, N.K. (2023)' Understanding risks associated with dams and in context to dams in

Damodar Valley', INCOLD Journal (A Half Yearly Technical Journal of Indian Committee on Large Dams).

13. Sheikh, U., Lone, M.A., Goel, N.K., and Zakwan, M. (2023), Modelling of stage-discharge relationship using optimisation techniques for Jhelum River in Kashmir Valley, NW Himalayas, International Journal of Hydrology Science and Technology 15 (2), 140-153.
14. Macedoa, M.B.D, Mendiando, E.M., Razzolinia, M.T.P., Goel, N.K., Arya, D.S., Kurian, M., and Nardocci, A.C. (2022), 'Multi-stage resilience analysis of the nexus flood-sanitation-public health in urban environments: a theoretical framework', Urban Water Journal, <https://doi.org/10.1080/1573062X.2022.2047737>
15. Hailesilassie, W.T., Goel, N.K., Tenalem, A., and Sittrak, T. (2022), 'Future precipitation changes in Central Ethiopian Main Rift under CMIP5 GCMs', Journal of Water and Climate Change, <https://doi.org/10.2166/wcc.2022.440>
16. Sheikh, U., Lone, M.A., Goel, N.K., and Zakwan, M. (2022), 'Trend analysis of Hydro-meteorological parameters in the Jhelum River basin , Northwestern Himalayas', Theoretical and Applied Climatology, <https://doi.org/10.1007/s00704-022-04014-7>
17. Umar, S, Lone, M.A., Goel, N.K. (2021), 'Modeling of annual rainfall extremes in the Jhelum River basin, Northwestern Himalayas', Sustainable Water Resources Management, 7:59 <https://doi.org/10.1007/s40899-021-00539-3>
18. Umar, S, Lone, M.A., Goel, N.K. (2021), 'Modeling of peak discharges and frequency analysis of floods on the Jhelum river, North Western Himalayas', Modeling Earth Systems and Environment, 7:1991–2003 <https://doi.org/10.1007/s40808-020-00957-w>
19. Ray, L. K., and Goel, N.K. (2021), 'Spatio-temporal change in rainfall over five different climatic regions of India', Journal of Water and Climate Change, 12(7), <https://doi.org/10.2166/wcc.2021.052>
20. Chowdhury, B., Goel, N.K., and Arora, M. (2020), 'Evaluation and ranking of different gridded precipitation datasets for Satluj River basin using compromise programming and f-TOPSIS', Theoretical and Applied Climatology, 143 (1), 101-114; Correction 143(1) 115-117. <https://doi.org/10.1007/s00704-020-03405-y>
16. Ray, L.K., Goel, N.K. and Arora, M. (2019), Trend analysis and change point detection of temperature over parts of India', Theoretical and Applied Climatology, 138 (1), 153-167. <https://doi.org/10.1007/s00704-019-02819-7>
17. Ray, L.K. and Goel, N.K. (2019), 'Flood frequency analysis of Narmada River basin in India under Non-stationary condition: A case study', Journal of Hydrologic Engineering, in production (DOI: 10.1061/(ASCE)HE.1943-5584.0001808). [https://doi.org/10.1061/\(ASCE\)HE.1943-5584.0001808](https://doi.org/10.1061/(ASCE)HE.1943-5584.0001808).

## **TECHNICAL REPORTS**

1. Goel, N.K. and Chander, S. (2002), 'Regionalisation of hydrological parameters', Indian National Committee on Hydrology report no. INCOH/SAR- 24/2002, INCOH secretariat, National Institute of Hydrology, 101 p.
2. Goel, N.K. (1988), 'Forecasting of monsoon runoff using data from specific basins', National Institute of Hydrology Technical Report no.TR-43.
3. Seth, S.M. and Goel, N.K. (1987), 'Comparative study of different parameter estimation techniques for EV-I distribution', National Institute of Hydrology Technical Report no. TR-36.
4. Goel, N.K. (1986), 'Simple technique for forecasting of monsoon rainfall and runoff and application to Mahanadi river at Hirakud', National Institute of Hydrology Technical Report no.TR-17.
5. Seth, S.M., Goel, N.K. and Nirupma, P. (1987), 'Application of bivariate Thomas Fiering model for monthly streamflow generation in Mahanadi river basin', National Institute of Hydrology Technical Report no. CS-19.
6. Seth, S.M. and Goel, N.K. (1986), 'Some studies on plotting position formulae for Gumbel EV- 1 distribution', National Institute of Hydrology Technical Report no. TR-9.
7. Seth, S.M. and Goel, N.K. (1986), 'Techniques for flood frequency analysis', National Institute of Hydrology Technical Report no. UM-24.
8. Seth, S.M. and Goel, N.K. (1985), 'Partial duration series models', National Institute of Hydrology Technical Report no. CS-II.
9. Seth, S.M. and Goel, N.K. (1985), 'Time series analysis models', National Institute of Hydrology Technical Report no. RN-18.
10. Seth, S.M. and Goel, N.K. (1985), 'Flood forecasting models', National Institute of Hydrology Technical Report no. RN-35.
11. Goel, N.K. (1984), 'Time series analysis', National Institute of Hydrology Technical Report no. IND/74/045.
12. Seth, S.M. and Goel, N.K. (1984), 'Frequency analysis', National Institute of Hydrology Technical Report no. UM-2.
13. Seth, S.M., Goel, N.K. and Bhatia K.K.S. (1984), 'Monthly streamflow generation', National Institute of Hydrology Technical Report no. CS-8.

14. Seth, S.M. and Goel, N.K. (1984), 'Partial duration series models', National Institute of Hydrology Technical Report no.RN-5.
15. Seth, S.M., Perumal, M. and Goel, N.K. (1983), 'Development and application of programme on power transformation method to flood frequency analysis - A comparative study with other normalization procedures', National Institute of Hydrology Technical Report.

### **SPONSORED RESEARCH PROJECTS HANDLED**

1. Establishment of International Centre of Excellence for dams, sponsored by Ministry of Jal Shakti, **Rs 108.99 crores**, 2022-23, Founder PI and present Co-PI along with 2 theme leaders and other investigators.
2. Theory of Change Observatory on Disaster Resilience, joint project sponsored by Belmont Forum; participating as associated partner with University of Sao Paulo, Brazil; 2020-2022.
3. Analysis of Climate Change and Urban Heat Island Impact in Dehradun, Uttarakhand, sponsored by DST; Rs 62 lakhs; 2018-19, as Co-PI.
4. Capacity Building of IIT Roorkee in the Area of Dam Safety; Sponsored by Ministry of Water Resources, River Development and Ganga Rejuvenation; Rs 10.92 Crores, 2017-18.
5. Meteorological Data Collection, Monitoring, Processing and Analysis to Evaluate Climate Variability in the State of Uttaranchal under U-PROBE sponsored by Department of Science and Technology, Government of India Amount Rs. 23.5 lakhs; 2002-03 Completed.
6. Development of spatial water and climate information system for the state of Uttaranchal under U-PROBE sponsored by Department of Science and Technology, Government of India Amount Rs. 13.68 lakhs Completed.; 2003-04.
7. Studying meandering and shifting behaviour of the Ganges River in plains of Uttarakhand UCOST, Dehradun, India- 2012-13 Completed. Rs. 2.5 Lakhs; as Co-PI.
8. Inventorisation of Industries Using Web and GIS-based Techniques for Hardwar and Udham Singh Nagar Districts, UCOST, Dehradun, India- 2010-11 Completed.; 6.6 lakhs, as Co-PI.
9. Development of Dynamic Flood frequency models- sponsored by Min. of Water Resources Rs. 3.60 lakhs; 1996 Completed.

### **CONSULTANCY PROJECTS HANDLED AS PI/ Co-PI**

1. Hiring consultancy services for Hydrographic survey & other associated studies of Virbhadra Barrage, sponsored by UJVN Limited, 2025-26, Rs. 48 Lakhs. as Co-PI
2. Comprehensive Stormwater Management Plan for Bhubaneswar City, Bhubaneswar Municipal Corporation, Govt. of Odisha, Rs 9.49 Cr, 2025, In Progress.
3. HFL and drainage study for the Proposed Ethanol Plant Project at Jeetpur Bahedi Industrial Area, Una, Himachal Pradesh, M/S Hindustan Petroleum Limited, Himachal Pradesh, Rs 28.32 Lakh, 2024, In Progress.
4. Site visit to provide the solutions for reduction the freeboard at Pahuj Dam, sponsored by Jhansi Irrigation and Water Resources Department, U.P., 2025-26, Rs. 5.0 Lakhs. as Co-PI
5. Development of Operational inflow forecasting system for Tapovan Vishnugad Hydro Electric Project, Sponsored by NTPC Ltd., 2024-25, Rs. 1.18 Crores, as Co-PI
6. Dam Break Analysis and Disaster Management Plan of Tuirial Dam; sponsored by NEEPCO Ltd., 2023-24, 21 Lakhs; as Co-PI
7. Dam break analysis of the Lower Kopili Hydroelectric Project, Assam, sponsored by APGCL, Guwahati
8. Updating of EAP and Dam break Analysis for Nimoobazgo, NHPC Ltd.
9. Updating of EAP and Dam break Analysis for Chutak Power Station, NHPC Ltd.

10. Development of operational Inflow forecasting system for Chamera 3 project; sponsored by NHPC Ltd., 2020-2023, 2.7 Crores.
11. Real-time flood forecasting system for Tehri dam:
  - Phase I - Development of operational real-time flood forecasting system for Tehri dam, sponsored by THDCIL; 1.21 Crores, 2011-12.
  - Phase II - Improvement in Real Time Inflow Forecasting System, sponsored by THDCIL; 48.95 lakhs, 2019-20.
  - Phase III - Inflow Forecasts for Tehri Dam Using Operational Inflow Forecasting System, sponsored by THDCIL; 29.09 lakhs, 2020-21.
  - Phase IV - Issuing Inflow Forecasts for Tehri Dam Reservoir Using Operational Inflow Forecasting System, sponsored by THDCIL; 36.81 lakhs, 2021-22.
  - Phase V - Issuing Inflow for Tehri Dam Using Operational Inflow Forecasting System, sponsored by THDCIL; 56.64 lakhs, 2022-23.
  - Phase VI - Issuing Inflow for Tehri Dam Using Operational Inflow Forecasting System, sponsored by THDCIL; 17.7 lakhs, 2023-24.
  - Phase VII- Issuing Inflow for Tehri Dam Using Operational Inflow Forecasting System, sponsored by THDCIL; 15.0 lakhs, 2024-25.
12. Development of Water Resources Information System; Third party Evaluation; Sponsored by Ministry of Jal Shakti, Department of Water Resources, River Development and Ganga Rejuvenation; 24.78 Lakhs. Completed; 2021- 2022.
13. Flood routing studies for Kol Dam, sponsored by NTPC Ltd. 2020-21 Rs 18.88 lakhs. Completed. 2021-2022.
14. Vetting of reports of Disaster Risk Assessment of Uttarakhand, sponsored by Uttarakhand Disaster Recovery Project; Rs. 1.62 crores; 2017-18; as Co- PI.
15. Estimation of PMF, design flood including determining spillway capacity for Gulf of Khambat development Project- Kalpasar project', sponsored by Kalpasar Department, 69.39 lakhs, 2012-13 Completed in 2018.
16. Climate Proofing of Springshed Development Programme, sponsored by UNDP; 14.0 lakhs; Co-PI. 2019-2021, as Co-PI
17. Area drainage study in and around HPCL, Rajasthan Refinery Ltd., Pachpadra, Barmer; sponsored by EIL; Rs. 11.8 lakhs (2018-19); Contributed as Co- PI.
18. Study of the migration/ meandering behavior of River Midhola in Distt Surat; sponsored by GAIL (India) Limited. (Rs 7.965 lakhs); 2017-18, Completed.
19. Performance Evaluation of Dam Rehabilitation and Improvement Project (DRIP); 2017-18 sponsored by MoWR, RD &GR; 23.6 lakhs Completed.
20. Ground water coloration studies near Shabajpur village, sponsored by Jubilant Life Sciences Limited, Gajraula, 14.97 Lakhs 2013-14 Completed.
21. Revision of guidelines of estimation of design basis flood for inland nuclear power plants, AERB, Rs. 10 lakhs, 2014-15; Completed.
22. Review of hydrological report of VSI airport, Port Blair, Airports Authority of India, Rs. 15.17 lakhs Completed.
23. Ground water and soil remediation measures near CTO-V, Hyderabad, Dr Reddy's, 13.1 lakhs 2014-15; Completed.
24. Hydrology and power potential studies for Vishnugad Pipalkoti HEP, sponsored by THDC Ltd. 13.23 lakhs, 2011-12 Completed.
25. Review of reports and drawings of South dump site for Chenani- Nashri tunnel J&K, sponsored by

- Leighton Contractors India Pvt. Ltd. and NHAI amount Rs. 7.3 lakhs, 2013-14 Completed.
26. Review of reports and drawings of dump sites for Chenani- Nashri tunnel J&K, sponsored by Leighton Contractors India Pvt. Ltd. and NHAI amount Rs. 25.3 lakhs, 2012-13 Completed.
  27. Hydrological Assessment for Chenani- Nashri tunnel area, sponsored by Leighton Contractors India Pvt. Ltd. and NHAI amount Rs. 11.47 lakhs, 2011-12 Completed.
  28. Hydrological study near Shamsabad area by GMR, Year 2010-11, Amount Rs.16.7 Lakhs Completed.
  29. GLOF studies for two sub-basins in Twang basin, Arunachal Pradesh, Sponsored by SEW Infrastructure, Hyderabad. Rs. 15.6 lakhs, 2011-13 Completed, as Co-PI.
  30. Data validation for SEW project sites, Sponsored by SEW Infrastructure, Hyderabad. Rs. 5.0 lakhs, 2011- 12 Completed, as Co-PI.
  31. Velocity and Cross Section Measurements of Chilla Canal, sponsored by DLZ Power Pvt. Ltd., Pune, 2009-10, Rs. 5.6 lakhs Completed, as Co-PI.
  32. Meandering behavior of river Ramganga and Ganga near Farrukhabad, sponsored by GAIL (India), limited, Rs. 21 lakhs – year 2009-10 Completed.
  33. Processing and verification of discharge data of river Tamaklata and Alaknada, sponsored by R.K. Engineering, Roorkee, Rs. 5.5 lakhs, year 2009-10 Completed, as Co-PI.
  34. Ground water coloration studies near Shabajpur village, sponsored by Jubilant Organosys, Gajraula, 5.5Lakhs - year 2010 Completed.
  35. Ground water coloration studies near Shabajpur village, sponsored by Jubilant Organosys, Gajraula, 6.7 Lakhs - year 2009 Completed.
  36. Series extension and design energy computations for Tehri dam, sponsored by THDC Ltd., 2.2 lacks – year 2009-10 Completed.
  37. Study and Analysis of observed data of Suketi Khad, Kansa Khad and River Beas Sponsored by Bhakra Beas Management Board, Year 2008-09, Amount Rs. 7.86 Lakhs Completed.
  38. Hydrological Survey at Koteswar Power Station – Water Supply and Geophysical Investigations Sponsored by Power Grid Corporation of India, Year 2008-09, Amount Rs. 2.25 Lakhs Completed.
  39. Review of Gomti Nagar (extension) Drainage Design Sponsored by Lucknow Development Authority, Year 2008-09, Amount Rs. 6.75 Lakhs – Completed, as Co-PI.
  40. Review of Hydrological Aspects of TATO – II and SIYOM HE-Project Sponsored by Reliance, Year 2008-09, Amount Rs. 6.75 Lakhs Completed.
  41. Reconnaissance Study Around GHIAL Sponsored by GMR, Year 2008-09, Amount Rs.1.12 Lakhs Completed.
  42. Hydrological Studies at Cuttack, Orissa, Sponsored by M/S WAPCOS, Year 2008-09, Amount Rs. 5.05 Lakhs Completed.
  43. River Migration Studies, Design Flood Studies, Sponsored by L&T, Year 2008-09, Amount Rs. 29 Lakhs Completed.
  44. Review of Hydrology of Tehri dam, sponsored by THDC, Year 2008-09, Amount Rs. 4.5 lacks Completed.
  45. Urban drainage design for Jaipur city, sponsored by Jaipur Development Authority, Year 2008-09, Amount 7.86 Lakhs Completed.
  46. Evaluation Study of completed Research schemes under the R&D Programme of MoWR, sponsored by Ministry of Water Resources, New Delhi, year 2006-07, amount Rs. 13.5 Lakhs Completed, as Co-PI.
  47. Hydrological study for Song dam, Amount Rs. 1.0 Lakhs Completed, as Co-PI.
  48. State level master plan for SHP Potential sites in Chhattisgarh, as Co-PI. Completed.
  49. Strengthening Disaster Mitigation and Management at State level in India, as Co-PI, Asian Disaster Preparedness Center, (Flood Plans for UP) Completed.

50. Regional flow regimes estimation for small scale hydropower assessment (REFRESHA) Co-PI, Completed.
51. External Drainage Design for Kosi Kotwan Industrial Estate of UPSIDC Co-PI Completed.
52. Preparation of detailed project for the conservation and management of Dal-Nagin Lake in Srinagar (J&K) Co-PI, Completed.
53. External drainage design for TRONICA city, UPSIDC project, Co-PI (1998), Completed.
54. Testing of pan Evaporimeters (1998), M/s Delite Engineering Works, Roorkee, Completed.
55. Hydrology study for integrated steel plant, Satarda, Usha Ispat Ltd. (1997), Co-PI, Completed.
56. Development of hydrological watershed simulation model (phase-I) Review and recommended approach, Ministry of Agriculture, New Delhi, (1992), Co-PI, Completed.
57. Design flood estimation for Kishau dam, National Institute of Hydrology (1989), Co-PI, Completed.
58. Water availability studies for Mahanadi River basin at three sites, National Institute of Hydrology (1986), Co-PI, Completed.
59. Design flood estimation for Narmada Sagar and Sardar Sarovar Project, National Institute of Hydrology, (1985), Co-PI, Completed.

### **SPONSORED SHORT-TERM COURSES**

1. Emergency Action Plans for Dams, January 29 to February 1, 2024, short term training programme for various stake holders, ICED, IIT Roorkee, Co-PI.
2. Hydrological Analysis and Planning for the Hydro and Thermal power projects, March 13-17, 2023, Sponsored by NTPC Ltd.
3. Design flood estimation for gauged catchments, August 17-19, 2020, Sponsored by Ministry of Jal Shakti, Department of Water Resources, River Development and Ganga Rejuvenation, GoI.
4. Design flood estimation for ungauged catchments, August 20-21, 2020, Sponsored by Ministry of Jal Shakti, Department of Water Resources, River Development and Ganga Rejuvenation, GoI.
5. Design flood estimation for gauged catchments, September 16-18, 2019, Sponsored by Ministry of Jal Shakti, Department of Water Resources, River Development and Ganga Rejuvenation, GoI.
6. Design flood estimation for ungauged catchments, September 19-20, 2019, Sponsored by Ministry of Jal Shakti, Department of Water Resources, River Development and Ganga Rejuvenation, GoI.
7. Open data Sources: Spatiotemporal analysis; March 19-24, 2018, sponsored by National Hydrology project, Ministry of Water Resources, River Development and Ganga Rejuvenation, GoI, as Co-PI.
8. Water Resources Management: Jan. 8-27, 2018, for participants of Africa, sponsored by East and Southern African Division, Ministry of External Affairs, Govt. of India, as Co-PI.
9. Investigation, remediation and Management of Soil and groundwater Contaminated sites; Nov. 20-22, Sponsored by Central Pollution Control Board, as Co-PI.
10. Open data Sources: Spatiotemporal analysis; Oct. 9-14, 2017, sponsored by National Hydrology project, Ministry of Water Resources, River Development and Ganga Rejuvenation, GoI, as Co-PI.
11. River basin planning using HEC software; February 20-25, 2017, sponsored by National Hydrology project, Ministry of Water Resources, River Development and Ganga Rejuvenation, GoI, as Co-PI.
12. River basin planning using HEC software; September 5-10, 2016, sponsored by National Hydrology project, Ministry of Water Resources, River Development and Ganga Rejuvenation, GoI, as Co-PI.
13. River basin planning using HEC software; July 11-16, 2016, sponsored by National Hydrology project, Ministry of Water Resources, River Development and Ganga Rejuvenation, GoI, as Co-PI.
14. River basin planning using HEC software; May 16-23, 2016, sponsored by National Hydrology project, Ministry of Water Resources, River Development and Ganga Rejuvenation, GoI, as Co-PI.

15. Flood forecasting and Warning; October 26-30, 2015, International short term training course sponsored by World Meteorological Organization, Geneva, as Co-PI.
16. Flood estimation and forecasting; Sept. Feb. 22-27, 2015, for the officers of Tamil Nadu water Resources Department.
17. Hydrological analysis and planning for water resources projects; July 13-18, 2014, for the officers of Tamil Nadu water Resources Department.
18. Climate change issues and impacts on water resources management in coastal and seasonal wetlands, April 7-17, 2014, for the officers of BWDB, Bangladesh.
19. GIS and Remote sensing applications in water resources projects, Feb. 9-14, 2014, for the officers of Tamil Nadu water Resources Department.
20. Climate change issues and impacts on water resources management in coastal and seasonal wetlands, June 9-19, 2013, for the officers of BWDB, Bangladesh.
21. Climate change issues and impacts on water resources management in coastal and seasonal wetlands, March 11-20, 2013, for the officers of BWDB, Bangladesh.
22. Remote sensing and GIS applications in hydro-power projects, Jan. 21-23, 2013, for the officers of NHPC Ltd.
23. Remote sensing and GIS applications in hydro-power projects, Jan. 14-18, 2013, for the officers of NHPC Ltd.
24. Hydrological analysis for water resource planning and management in environmental aspects, June 11-22, 2012, for the officers BWDB, Bangladesh
25. Climate change effect on flood estimates and hydrological variables, March 5-14, 2012, for the officers BWDB, Bangladesh
26. Crop Water Management, Dec. 13-17, 2011, for the officers of minor Irrigation, Govt. of Orissa.
27. Estimation of design flood and design of spillways for minor irrigation projects Dec. 1-5, 2011, for the officers of minor Irrigation, Govt. of Orissa.
28. Remotes sensing and GIS applications for hydro-power projects, October 19-21, 2011, for the officers of NHPC Ltd.
29. Hydrological and water resources planning for minor irrigation projects, Sept 26-30, 2011, for the officers of minor Irrigation, Govt. of Orissa.
30. Remotes sensing and GIS applications for hydro-power projects June 20-22, 2011, for the officers of NHPC Ltd.
31. Flood estimation in a changing climate March 5-12, 2011, for the officers of Institute of Water Modeling, Govt. of Bangladesh
32. Urban flood modeling and drainage design, March 22-27, 2010, sponsored by Govt. of Sri Lanka
33. Remote sensing and GIS applications for Hydro-power projects, Feb. 22-27, 2010, sponsored by NHPC Ltd.
34. Ground water resource evaluation in Hard rock areas, Oct. 19- 24, 2009, sponsored by ground water Department, Govt. of Andhra Pradesh
35. Hydrological Analyses and Planning for Water Resources Projects with Exposure to Emerging Tools, Nov. 16 – 21, 2008, sponsored by Maharashtra Water Resources Department
36. Urban Flood Modeling and Drainage Design, Sept. 22 – 27, 2008, sponsored by MMRDA
37. Planning Analyses and Modeling of Groundwater in Hard Rock Areas, Sept. 01- 06, 2008 Sponsored by GSDA, Pune, Govt. of Maharashtra
38. Planning Analyses and Modeling of Groundwater in Hard Rock Areas, Aug. 18- 23, 2008, sponsored by Department of Mines and Geology, Govt. of Karnataka
39. Groundwater Planning, Analyses and Modeling in Hard Rock Areas, sponsored by Department of Mines

and Geology, Govt. of Karnataka, July 21 – 26, 2008

40. Hydrological Analyses and Planning for Hydro Power Project, June 9-14, 2008, sponsored by NHPC Ltd.
41. Hydrological Analyses and Planning for Hydro Power Project, Dec. 17-22, 2007, sponsored by NHPC Ltd.
42. Hydrological Analyses and Planning for Hydro Power Project with emphasis on Design flood Estimation, Oct. 1-6, 2007, sponsored by Damodar Valley Corporation
43. Design flood analysis for hydropower projects, Aug. 20-25, 2007, sponsored by NTPC Ltd.
44. Hydrological Analyses and Planning for Hydro Power Project with emphasis on Design flood Estimation, Jul 2-7, 2007, sponsored by NHPC Ltd.
45. Hydrological Analyses and Planning for Hydro Power Project with emphasis on Design flood Estimation. Feb. 19-24, 2007, sponsored by Satluj Jal Vidyut Nigam Ltd.
46. Hydrological analyses and planning for Hydropower projects with emphasis on design flood estimation, Dec. 18-23, 2006, sponsored by Damodar Valley Corporation.
47. Urban flood disaster modeling and management Oct. 16-21, 2006, in joint collaboration with UNESCO-IHE, Netherlands, funded by NUFFIC, as Co-PI.
48. Hydrological analyses and planning for Hydropower projects with emphasis on design flood estimation, July 31-Aug. 5, 2006, sponsored by NHPC Ltd.
49. Hydrological analyses and planning for Hydropower projects, June 5-10, 2006, sponsored by NTPC Ltd.
50. Flood frequency analysis, Oct. 5-9, 1987, at Hyderabad, as Scientist of NIH.
51. Design storm and design flood, August 10-14, 1987, at KERS, Mysore as Scientist of NIH.
52. Reservoir operation, April 6-10, 1987, at National Institute of Hydrology as Scientist of NIH.
53. Flood estimation using Unit Hydrograph Techniques, Feb. 8-12, 1988, at Lucknow.
54. Design storm and design flood, Jan. 5-9, 1987, at National Institute of Hydrology as Scientist of NIH.
55. Flood estimation using Unit Hydrograph Techniques, Nov. 24- 28, 1986, at KERS, Mysore as Scientist of NIH.
56. Flood routing flood forecasting, Nov. 10- 14, 1986 at National Institute of Hydrology as Scientist of NIH.
57. Flood frequency analysis, August 25-30, 1986, at Bhubaneswar as Scientist of NIH
58. Observation, processing and analysis of precipitation data, Feb. 24- 28, 1986 at National Institute of Hydrology as Scientist of NIH.
59. Flood frequency analysis, Dec. 16-20, 1985, at Calcutta as Scientist of NIH
60. Flood frequency analysis, Oct. 7-10, 1985, at Guwahati as Scientist of NIH.
61. Flood frequency analysis, May 13-17, 1985, at National Institute of Hydrology as Scientist of NIH.
62. Flood estimation using Unit Hydrograph Techniques, April 15-19, 1985, at National Institute of Hydrology as Scientist of NIH.

### **National and International Conferences organized**

1. Third National Dam Safety Conference at IIT Roorkee in collaboration with Central Water Commission and UJVNL February 18-19, 2017.
2. International Symposium on 'Hydrological Perspectives for Sustainable Development' at IIT Roorkee, Feb. 23-25, 2005, as member of core organizing committee.
3. International Symposium on 'Emerging Trends in Hydrology' at IIT Roorkee, Sept. 25-27, 1997; as Joint Organizing Secretary.
4. National Seminar on 'Hydrological Hazards- Prevention and Mitigation', at IIT Roorkee, March 17- 18, 1993, as Organizing Secretary.

**International exposure:**

July 28- August 1, 2024	Visit to ICIMOD, Department of Hydrology and Meteorology, Ministry of Water Resources, Kathmandu (Nepal), etc.
April 20-29, 2024	UNSW, WSU, Water New South Wales, Australia
Sept 16-24, 2022	London, Centre of Ecology and Hydrology, Wallingford, UK
Sept. 11-15, 2022	IWA World Water Congress and Exhibition, Copenhagen, Denmark, CEH, UK
Nov. 17-21, 2016	Wuhan, China; Three Gorges Dam
July 13-22, 2012	TUHH, Germany, WMO Geneva, Dubai
Sept. 23-25, 2011	Dhaka, Bangladesh, Institute of Water Modelling
June 2007	UNESCO-IHE, Delft
March- April, 2007	UNESCO- IHE Delft, WMO, Geneva, Switzerland
Sept. 2006	Nanjing, China, AIT, Bangkok
Oct. 2005	Norway, UNESCO-IHE Delft
June 2003 to July 2003	University of Waterloo, Canada
May 2001 to Aug. 2001	University of Waterloo, Canada
Dec. 1998 - March, 1999	University of Waterloo, Waterloo, Canada, Stanford University, Tufts University, Medford, MA, USA
Nov. 1987 - Dec. 1987	University College Galway, Ireland
Aug. 1983 - Jan. 1984	Colorado State University, Fort Collins, U.S.A., Also visited USGS, University of Texas, Purdue university, Harvard, MIT etc. across USA
